

April 26, 1941.

Mr. Harold W. Tappey,
65 Nassau St.,
New York City.

Dear Mr. Tappey:

Your letter of April 18th received. You quoted the price of \$8.13 a hundred for one-tenth of an inch of rain, and \$10.56 a hundred for one-twentieth of an inch. Does this price insure both expenses and profits? You said if I took in \$2000. in last years Opening game I could insure for \$1200. on this game, does that mean \$2000. net or \$2000. gross? Please answer by return mail, as the game is scheduled for May 11th.

Very truly yours,

EM:CCJ
